SUMMARY

Passionate BTech student with strong MERN stack skills (MongoDB, Express.js, React, Node.js) experienced in building responsive, full-stack web applications, eager to contribute to real-world projects as a full-time developer.

EDUCATION

Galgotias University

B.tech - Computer Science and Engineering

2021-2025

CGPA-7.2

PROJECTS

NovaAI— | MERN

[Github](#)

Developed a modern AI chatbot web app with real-time query handling.

- Integrated OpenAI's API using Axios to generate intelligent responses
- Designed a responsive UI using Tailwind CSS for an engaging chat experience
- Rendered markdown-formatted responses using React Markdown
- Implemented error handling and edge-case management for smooth interaction

Netflix clone— |MERN

[Github](#)

Built a fully responsive Netflix clone replicating core streaming UI and features.

- Integrated Firebase Authentication for secure sign-up and login functionality
- Fetched and displayed movie data from the TMDB API using Axios
- Used Redux Toolkit for global state management of movie listings and user data
- Built protected routes using React Router to manage authenticated views

Crud Based Mern app —| MERN

[Link](#)

Built a full-stack CRUD application using **MongoDB, Express.js, React, and Node.js**.

- Implemented RESTful APIs for creating, reading, updating, and deleting data entries.
- Integrated MongoDB for data persistence and Mongoose for schema management.
- Utilized React with hooks for dynamic UI rendering and state management.

TECHNICAL SKILLS

Languages: Java, HTML+CSS, JavaScript

WebDev Tools: Html, CSS, React ,Node.js, Express.js,Bootstrap

Database: MongoDB

Version Control: Git/Github

COURSEWORK SKILL

C++,Data Structures & Algorithms, Database Management System (DBMS), Operating Systems, Artificial Intelligence, OOPS Concept, Web Development, C++.
